Kai's monstrous journey

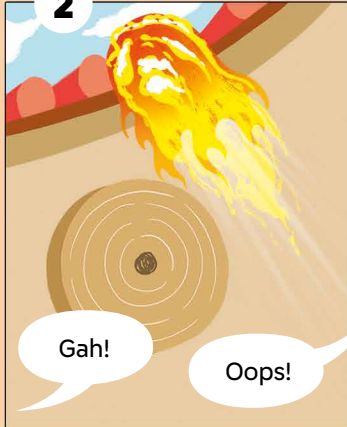

1

Calm yourself, Wyldfyre. When your mind is clear you'll truly see.

I can't do it Kai. All I see is the back of my eyelids!

Yes, you can, use your emotions to grow stronger. Also, be careful of those bonsai. They're super old.

2

Gah!

Oops!

3

Close...

Really?!

4

Almost!

Come on!

GRRRR!

5

6

Take a breath. No one gets it on the first try.

GAH! I told you I couldn't do it!

This is a waste of time!

I'm a failure!!

7

WHOOSH!

8

No! Kichona Ki! My favourite bonsai!

9

I'm a monster!

10

You really did it this time, Wyldfyre. Why are you always filled with such rage?

The Land of Monsters?! And you made it out alive?

Barely. I was hunted by unimaginable beasts...

21

...and almost became one myself.

Like an actual monster?

22

Yes, it was the toughest thing I had ever faced. I've tried so hard to put it behind me.

How do you move on from something like that?

23

I had to accept myself for who I am. We all make mistakes. That's how we learn and grow stronger.

Sorry you went through that... and sorry I blew up your bonsai.

That's OK and you're NOT a monster. Now, do you want to hear more?

24

Yeah! But first there's something else I have to do...

25

You hit another target! You're on fire today!

I'm always on fire! But your story really inspired me. If you got through the Land of Monsters alive then I can hit some targets.

Come on!

26

That was a really dark time, but it feels good to have shared it with a friend.

Hi there, my name is Ellie and I am from Australia.

My absolute favourite things to build are LEGO® houses. I love to create detailed, vibrant spaces for my LEGO minidolls to call home. It's like I am creating my own little world.

I have always loved dollhouses and tiny things

When the first LEGO® Friends house was released (Olivia's House in 2012), I was completely hooked – I actually hadn't built a single LEGO set before then! Being able to build them and add my personal touch was a dream come true!

What do you like to add to your builds?

It's just me, the LEGO® bricks and my imagination

I love learning new ways to put the bricks together and create something amazing. There are often little secrets to discover, hidden within the build! Once the build is completed, I think about how I can change it up to suit my own style – without using any instructions!

What surprised you in your LEGO® set?

I keep reminding myself that it doesn't have to be perfect

Building without instructions can feel really difficult sometimes. When I can't find the right LEGO® bricks to fit the image in my head, I challenge myself to find another way to build with the bricks I do have. It doesn't always end up how I planned, but that's part of the fun!

What do you do when you get stuck?

A tip I always try

If a space in your build looks empty and you just can't figure out why, put a LEGO® plant in it. Give it a go, somehow it always works for me!

What tip would you share with other builders?

Write to us!
Go to page 26 to see how!
