Want to make your own stop-motion animation? Check out these awesome tips!

Start with a storyboard!

A storyboard is a set of simple pictures that show what will happen in your film and what shots you'll need.

Next comes the animatic.

That's your storyboard turned into a little animation, put together with music, sound effects and voices so you can check everything works before you start filming.

Boop is the story of a clay alien who crash-lands into a LEGO® brick world. It all began with these storyboard drawings!

Decorate a potted present

Design a pretty pattern and gift this creation to a loved one. It's perfect for birthdays, Mother's Day, Father's Day and more!

BOTANICALS™

Fun fact!

Ever wondered how cactuses survive in the dry desert? One of their clever tricks is that they absorb huge amounts of water and store it in their spongy stems, meaning they have enough to drink all year round. By doing this, some cactuses live up to 200 years!

A walk in the woods

1

Lloyd has spent all day searching for clues that will help him discover his True Form – a ninja's most powerful state!

What could my True Form be? And how do I unlock it?

2

Is it something I need to find within these woods?

Or something I need to find within myself?

3

Maybe it's something from my childhood?

4

But when I used Tomorrow's Tea to save my friends, it aged me into a teenager...

...so I don't remember my childhood.
Gah!

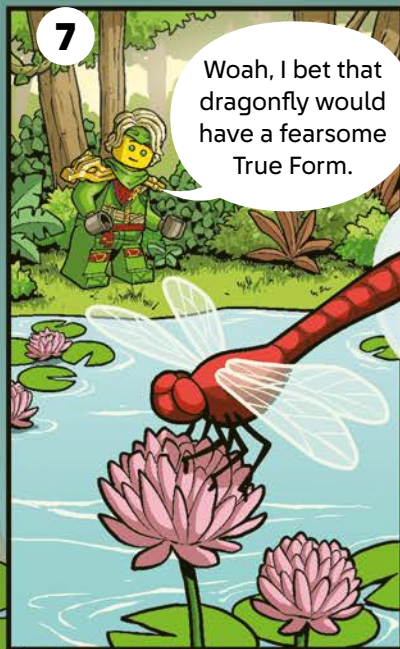

5

Hm, I wonder what True Form that squirrel is hiding...

6

A squirrel-dragon would actually be pretty cool...

...not for the acorns, though!

7

Woah, I bet that dragonfly would have a fearsome True Form.

8

A dragon-dragonfly!? That would make a great ride!

9

Phew, I'm totally exhausted. I'd better take a drink...

10

Wh- what's happening? Is this reflection my True Form?

11

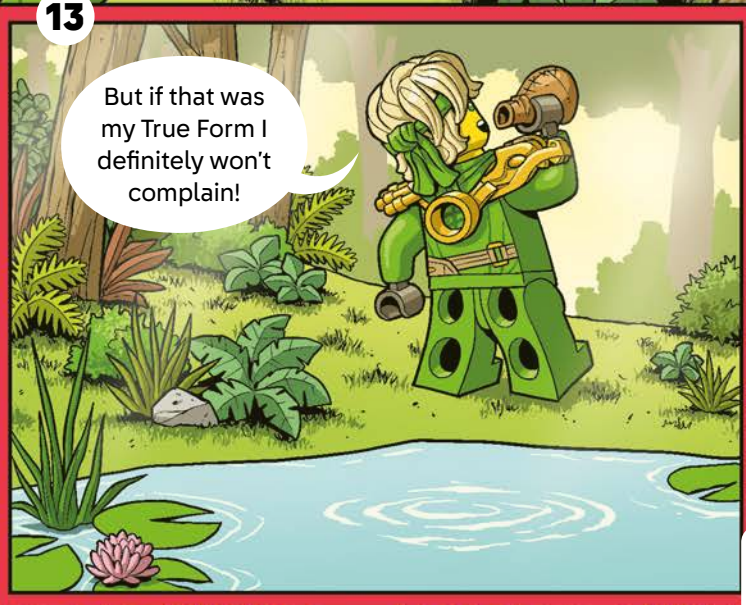

No, Lloyd. You've been walking all day and are too tired to think straight!

12

Erm... I guess that's a good reminder to drink more water when it's hot!

POOF!

13

But if that was my True Form I definitely won't complain!
